STORM APOLLO THERMAL JACKET

DB-APOLLO-NB

Description

Dromex® STORM APOLLO jacket, is a high visibility thermal bomber-style, water-resistant jacket protecting the body and undergarments from the hazards of rain, water splashes and cold temperatures.

The STORM APOLLO jacket is versatile with detachable sleeves which enables use as a body warmer. The fleece inner lining keeps the wearer warm, whilst the outer Gabardine fabric keeps the garment dry.

The jacket design consists of the following:

- A heavy-duty chunky nylon open end front zip closure with metal puller.
- An elasticated cuff prevents water from running down your sleeves.
- An elasticated waist for a comfort fit.
- Detachable sleeves with nylon open end zipper and metal puller.
- There are 2 large side-entry waist welt pockets, ideal when using gloves.
- Left sleeve utility pocket: Chunky nylon closed end zip division and pen and small object storage.
- Right Breast Pocket: a dual utility bellow pocket with flap Velcro closure and a chunky nylon closed end zip closure, preventing the contents from falling out.
- Left Breast Bellow Pocket: with storm flap Velcro closure and plastic ID card holder with Velcro closure.
- Internal right breast pocket with Velcro closure.
- High visibility reflective tape on arms, wrist, waist and upper abdomen for enhanced high visibility when working in poor lighting environments.

Suitable for applications where there is exposure to rain and water and used in petrochemical, marine industry, agriculture, mining, outdoor and contractor applications.

Special Instructions

Do not use when working with chemicals.
 This type of garment is not designed for warm working conditions.
 Keep clear of open flames.
 None of the materials or processes used in the manufacture of these products are known to be harmful to the wearer.
