## Description

The Dromex® Thermaflex is a stylish yet practical fleece jacket providing the user with insulating warmth by retaining body heat while maintaining a lightweight and soft comfortable feel against the skin.

The fleece fabric exhibits durability, moisture and pilling resistance with quick-drying properties. It is easy to care for as it is fully machine washable.

This jacket features the following:

- The polyester-based synthetic fleece is hypoallergenic and non-itchy, while it's quick-drying and moisture-resistant.
- A full-length front zipper provides adjustable ventilation and is quick to put on and remove in comparison to pullover designs.
- A stand-up collar retains body heat and offers wind resistance by protecting the neck area, while maintaining comfort and compatibility with layered garments.
- 3 Integrated pockets for enhanced user functionality by providing thermal hand-warming capability in the 2 open waist pockets and secure storage for personal items in the upper chest pocket with zip closure.
- All zippers are constructed with a reverse coil and the branded Dromex® rubberized zip fastener for a modern finish with added durability.
- Elasticated sleeve cuffs and waist hem for a comfortable, close fit that helps keep warmth in and cold out.

- The lightweight, compressible construction of the synthetic fleece makes the jacket easy to pack and carry, without compromising insulation performance yet durable and abrasion resistant
- It is available in 3 different colours, black, navy blue and khaki.

This jacket is versatile and a low maintenance choice suitable for daily wear and use in cold weather for outdoor activities such as backpacking, hiking, climbing, active wear and where weight-saving is important, while offering a balance of comfort and style.

## Special Instructions

Keep clear of open flames.  
None of the materials or processes used in the manufacture of these products are known to be harmful to the wearer.  
The manufacturer has examined under the system for ensuring quality of production by means of monitoring and inspection.  
These Dromex® ThermaFlex jackets are designed to accommodate the basic safety requirements and standards for Personal Protective Equipment.  
The information contained herein is intended to assist the wearer in the selection of personal protective equipment.  
Actual conditions of use cannot be directly simulated in a test environment therefore it is the responsibility of the user and not the manufacturer or supplier to determine the jackets suitability for the intended use.

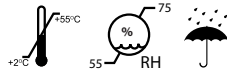

All thermaflex jackets should be thoroughly inspected before and after use to ensure no damage is present.

## Specifications

Style: Thermal protective long sleeve fleece jacket with full zip, pockets and high and stand collar available in black, navy blue and khaki.  
Fabric composition: 100% Polyester.  
Zip: Nylon.

## Packaging, Storage & Obsolescence

Each jacket is packaged in a reusable zip lock polybag.  
Store the jacket in the original packaging in a cool dry place and out of direct sunlight.

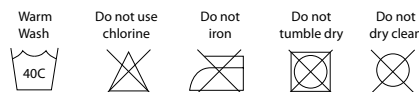

## Cleaning & Maintenance

Dromex® ThermaFlex jackets should not be left in a contaminated condition if re-use is intended especially if potential hazards exist.

The garments should be decontaminated before storage and re-use as indicated below:

- Machine wash and hand wash friendly.
- Water temperature must not exceed 40°C.
- Do not bleach. No bleach product may be used as the garment is not colourfast or structurally designed to withstand any bleach.
- Do not iron.
- Do not dry clean.

## Disposal

All industrial waste should be disposed of correctly according to local regulations and good disposal practice. Storm Lite jackets should be disposed of considering the hazardous substances they were used for. Please consider recycling.
