EVOTECH REFLECTIVE SHIRTS

DW-EVHVLS-BLKBL

Description

The Dromex® Evotex 65/35 TC Twill fabric, made from 65% polyester and 35% cotton, sets a new benchmark for durability, performance, and value through the perfect blend of innovation and quality materials. It combines the strength and colour retention of polyester with the softness and breathability of cotton without compromising on comfort or durability. The fabric also provides UV protection and is easy to maintain, with exceptional wash durability ensuring long-lasting wear and appearance.

These Dromex® shirt styles are available in five colours, Orange and Navy Blue, Yellow and Navy Blue, Green and Army Green, Black and Blue and full Navy. The DW-EVHVLS shirt construction features the following:

- Collar with hanger loop.
- Button closure shirt.
- A back yoke which is vented with a mesh and bartacked between the openings.
- High visibility reflective tape around the lower chest, upper waist, back and arms.
- The sleeves are pleated in the front whilst the cuff is open with a navy plastic adjustable button closure.

- Two chest pockets with a mitred flap, button and open pen hole with a Dromex® sidewinder label (left pocket only).
- Seams are double needle topstitched and stress points are reinforced with bartacks for added durability.

These garments are commonly used in the following industries:

- Construction
- Outdoor inspections
- Outdoor work in hot climates
- Mining

Special Instructions

None of the materials or processes used in the manufacture of these products are known to be harmful to the wearer. The manufacturer has examined under the system for ensuring quality of production by means of monitoring and inspection. These shirts are designed to accommodate the basic safety requirements and standards for Personal Protective Equipment. The information contained herein is intended to assist the wearer in the selection of personal protective equipment. Actual conditions of use cannot be directly simulated in a test environment therefore it is the responsibility of the end user and not the manufacturer or supplier to determine the garment suitability for the intended use.

- DW-EVHVLS shirts are packed in individual polybags.

Cleaning & Maintenance

- The following suggestions will help keep your garment neat and safe:
 - Cotton garments can be cleaned by home cleaning or commercial laundering provided all the recommended conditions and settings are adhered to.
 - Should home procedures not remove contaminants, then dry cleaning is recommended.
 - Our recommended cleaning for these garments is as follows:
 - Wash separately with like colours.
 - Pre-treat greasy stains and wash the shirts in warm water with a light cleaning solvent.
 - Do not use Hypochlorite bleach or detergents containing Hypochlorite bleach as fading may occur.
 - Shirts can be dry cleaned.
 - Thoroughly rinse the shirt.
 - Do not hang in direct sunlight as fading may occur.
 - Iron the garment on low heat.
 - Do not iron on reflective tape.
 - When using commercial laundry aids, be sure to read and carefully follow the manufacturer's instructions.
